CEO, Keith Doore reported that he attended the MMA session in August regarding the adoption of Marijuana regulations. He said the information provided included a statement that there will most likely be more changes in 2019 in the law and regulations at the state level.

MMA said Saco now has the best example for a model ordinance. It also includes a reference to an odor ordinance. It was also stated that license requirements are recommended. A grower may have up to 800,000 square feet of space devoted to growing marijuana.

There was a brief discussion regarding an issue of individuals not applying for permits because they feel that that there is no fee so why bother.

Respectfully Submitted,

Lou Sidell, Jr.
